5. Job Pricing

25X1A

On 6 and 7 March, attended a workshop on the proposed supergrade Factor Evaluation System. Basically, positions are "priced" according to the following weighted factors: difficulty (30%), responsibility (30%), knowledge required (20%), managerial level of job-related contacts (10%) and closeness of supervision (10%). Although the system applies only to evaluation of supergrade positions, it offers a framework possibly useful for the evaluation of other positions as well. (U)
